COW is a modern, stylish and functional line of furniture that honours and utilises that most natural of materials – wood. Our furniture is specially designed for creative workers – people whose main asset is their brain. With such discerning customers in mind, meticulous care and attention has been given to the design and production of every detail of these products.

COW furniture fits equally well into the office, home office or a students' workspace. COW furniture helps you to be yourself – manage your stuff exactly the way you want to, organise your working life for maximum creative performance.

Innovative data management

COW boxes allow you to create a whole new management system for all your physical data.

Divide them by projects, by teams; keep them shelved or on desks; take them with you to meetings – the choices of use are limitless and flexible.

The COW box system is accessible from both sides and comes with special features such as the smart aligning and locking solutions.

Attention to Details

A careful human touch is present in every detail of every COW product. A real person has felt a real responsibility to make your product as good as it possibly could be. Firmness and stability are the keywords here – we want your COW to serve you well, even if you ride it hard.

We are obsessed with wood but that obsession is nothing without an obsession for quality. And quality we can guarantee.

Made to Impress

The COW desk is designed with clever practicality in mind. A shelf made of durable high-quality fabric is situated under the tabletop – the perfect place to hide all those tangled wires, adapters, etc. This way you can keep the desk tidy and free of hassle and clutter. The shelf is easily accessible by a smooth slide mechanism – just another example of the smart thinking that goes in every COW desk.

Desks

Timeless design allows COW desks to fit perfectly into any environment, by the wall or in the middle of the room. Rounded corners give it a safer, softer look.

COW desks are designed for offices, home offices or student workspaces. Desk 120 is perfect for a home workspace or a smaller office. Desk 160 is ideal for regular office work.

It is possible to order any desk without the sliding tabletop and fabric shelf.

Tables

All COW tables have rounded corners for added safety.

Table 200 seats up to 10 people in a meeting with electrical sockets situated in the middle of the table.

Table 140 seats up to 8 people in a meeting; 2 people as a permanent workspace or 4 people as a temporary workspace, also with electrical sockets in the middle.

Sofa Table 2 has a fabric shelf in the middle – ideal for magazines, newspapers, etc.

Box System

COW box systems come with a smart locking solution - when pulling a box out, the sliding mechanism tilts it slightly to indicate that the box is nearly out of the frame.

The boxes accessible from both sides and rounded corners give the system a softer, safer look.

Different frames and 5 types of boxes provide endless possibilities to compile, combine and categorise all your papers, equipment and other materials.
